

Obtaining Your Test Results

As Wakatipu Medical Centre deals with many patient test results on a daily basis it is our policy to inform patients of their test results only if they are clinically significant. So patients will not normally be contacted if the test results are normal.

Wakatipu Medical Centre is more than happy for patients to check on their results or confirm they are normal. We encourage patients to be actively involved in their care and following up on test results helps this process. Patients may indicate how they would like to receive notification of their results and if all results are to be advised.

To check your results at any time please contact any of the Practice Nurses. Reception staff do not have access to your results and cannot help you with these. If you wish to request your results by email then please email admin@wakatipumedical.co.nz and one of the nurses will reply to you. Most test results are available in 2 or 3 working days but some do take longer.

If you have changed your contact details please inform our reception staff as soon as possible to ensure your records are up to date.
